615 L vertical drum for dioxide sulfur

Date :
Page : 1/1

Désignation :

- Steel welded drums
- Water capacity : 615L
- Capacity of SO₂ : 500kg
- Dimension of the drums +cradle : 900mm x 900mm x H1880mm
- Dimension of the steel cradle : 900mm x 900mm x h1460mm
- Dimension of the drums : L1700mm x Ø860mm
- Test pressure : 29.4bar
- Tare (drums): ~300Kg
- Tare (cradle) : ~160kg
- TotalTare: ~460kg
- 2 parts: gas and liquid
- handle : pallet truck and forklift

Valves : clip'n use :

- Quick coupling
- Flat face obstruction
- Inventec patented
- Material : stainless steel
- Working pressure : 25bar
- Liquid part on the top of the drums
- Gas part on the side
