PROMOSOLV™ DR1

SOLVENT FOR RINSING & SPOTLESS FAST DRYING
CO-SOLVENT CLEANING & DRYING PROCESS
VERY LOW HSE IMPACT

BENEFITS

PROMOSOLV DR1 is especially designed to replace rinsing solvents with a high HSE impact and to offer a product in accordance with the latest and future environmental regulations. It is used in combination with our TOPKLEAN™ range to offer an environmentally friendly solvent solution without compromising on high cleaning performance. The very low surface tension allows to penetrate very tight spaces, making sure any cleaning chemistry is fully removed.

This product also exists in a recycled version (made from recycled solvent) under the name PROMOSOLV DR1 T.

PERFORMANCE	<ul style="list-style-type: none"> Thermally and chemically stable in use The very low surface tension allows deep rinsing of parts with complex geometry Short rinsing and drying times
COST	<ul style="list-style-type: none"> Continuous recycling in equipment for a long bath-life Can be returned for recycling and re-use The relative high boiling point reduces risk of solvent drag, so limiting consumption
HSE	<ul style="list-style-type: none"> Very low toxicity (refer to the SDS) No Ozon Depletion Potential (ODP) & low Global Warming Potential (GWP) Nonflammable
