Kübler Hightech & Inventec Performance Chemicals – Partners in soldering

Reliable supply chains, local support, deep process knowledge and continuous innovation are the important topics in today's world of connected electronics.

With over 60 years closely linked to high-reliability industries like aerospace, semiconductor, energy, automation and automotive, Inventec Performance Chemicals is proud to partner with Kübler Hightech as being their soldering range distribution partner for the German market.

The portfolio includes all ECOREL solder paste solutions available with different leaded and lead-free alloy options and powder sizes T3 up to T7 including adapted solutions for printing, dispensing and jetting applications. ECOFREC water- and solvent-based formulations for wave and selective soldering and tacky fluxes for semiconductor applications are completing the offer.

About Kübler Hightech:

Since over 30 years, the company offers innovative solutions for electronics manufacturing. Working closely with long-standing international partners and support, customers are supported with high-tech products and services for a wide range of sectors. Technical consulting is one of the top priorities for offering outstanding solutions for specific requirements in close cooperation partners and customers.
